# HI CAL + 10% UREA SALT BLOCK

Our Hi Cal Salt Block with 10% urea has been designed for livestock that may be suffering from calcium deficiency or are grazing dry pastures. The urea inclusion helps to maximize the benefits of poor-quality grazing by optimizing digestion.

## TYPICAL ANALYSIS

Bypass Protein Meal	3.50%	Salt	33.50%
Urea	10.00%	Molasses	6.00%
Crude Protein	1.30%	Calcium	18.00%
Equiv Crude Protein	28.70%	Sulphur	2.50%
Total Protein	30.00%	Magnesium	0.27%

## DID YOU KNOW

**THE ENERGY DERIVED FROM DIGESTED FEED TO MAINTAIN BODY FUNCTIONS AND TO PRODUCE WOOL, FOETAL GROWTH, MILK OR MORE BODY WEIGHT IS TERMED METABOLISABLE ENERGY (ME)**
