

PPP MOLASSES BLOCK RANGE

Our PPP Molasses Block range is made up of phosphorous, production and protein blocks that are designed specifically for young heifers, breeders and livestock that are grazing pastures in Northern Australia. The 6% and 12% urea blocks are best suited to younger heifers with the 18% urea block more suited to breeders.

Heavily pregnant heifer and breeders use phosphorous for growth, pregnancy and lactation, lactating cows require phosphorous for milk production.
