

HI CAL SALT BLOCK

Our Hi Cal Salt Block has been designed for livestock that may be suffering from calcium deficiency especially lactating or growing stock. Calcium is required for nutrient absorption along with ensuring adequate bone growth and formation.

TYPICAL ANALYSIS			
Bypass Protein Meal	4.00%	Molasses	6.00%
Crude Protein	1.48%	Calcium	20.00%
Total Protein	1.48%	Sulphur	2.50%
Salt	38.00%	Magnesium	0.27%

DID YOU KNOW

INADEQUATE CALCIUM SUPPLY BY A EWE TO HER LAMB MEANS THE LAMB HAS LOWER BONE CALCIUM STORES, AND AS AN ADULT WILL BE MORE AT RISK OF HYPOCALCAEMIA WHEN LAMBING
